

LISA MAY

Chair | Non-Executive Director | Certified Coach | Advisor | Strategic Marketing Expert

Web: lisamay.com.au. E: lisa@lisamay.com.au M:0448644730

Lisa is an exceptional global leader, accredited executive coach, board chair, board advisor and graduate of the Australian Institute of Company Directors. She is strategically-minded, results-focused and customer centric. She has a passion for health and wellness coupled with innovation and sustainability which have been strong themes throughout her career.

Her successful corporate journey of over 25 years in the FMCG and Retail sectors, culminated in her most recent corporate role where she was a member of the Nestlé Executive Team. This came with responsibility for the governance of a \$3 billion portfolio which included leading the vision, strategic direction and culture of the organisation. Her global experience alongside her ability to think strategically and stay calm and focused in a crisis, has supported her delivery of brand and business turnarounds with the consumer at heart.

Lisa's listening skills and ability to contribute with probing questions in complex environments, have inspired new and innovative approaches and strong results. In 2019, this translated into the launch of a hugely successful executive coaching practice where she supports individuals on an accelerated leadership development journey, challenging them to move from 'success to significance'. She has an extensive list of clients including Westpac, The Arnott's Group, the ABC, and Endeavour Drinks.

More recently, Lisa joined the Boardroom. With her strong commercial judgement and financial knowledge, she creates a sense of discipline and rigor, ensuring the team is focused on both short-term and long-term objectives. She is currently the Chair of the Steinhardt Group, an Independent Board Member on the Nominations Committee for Gymnastics Australia, and on the Advisory Board of Priestley's Gourmet Delights.

Her purpose is to empower genuine leadership to transform the world of business. Great leadership and inspiring others to walk this journey with confidence, takes the head, the heart, and the feet, resulting in commercially-led ethical outcomes and brilliant organisational culture. This requires a great deal of transparency and ultimately trust.

Lisa and her husband, David, have two daughters, Isla and Neve, aged 12 and 14, who they inspire to follow their dreams and be all they can be.
